Charity Kunold, ckunold@ucsd.edu, is the contact person for make-ups. Coordinators will be notified when a student is late or misses a mandatory event. They will also be notified when a make-up is done – or not done.

Attendance will be taken at all mandatory events. Attendance takers will begin 15 minutes prior to the event and will remain on-site until the start time.

All absences must be made up.

For GRE lectures and labs.

All labs and lectures are mandatory; missing GRE training can jeopardize your place in the program.

- Students who miss more than two GRE events (lecture, lab, or test), regardless of having completed a make up, must meet with Dr. Artis and are subject to dismissal from the Summer Research Program.

For all mandatory events:
Students who are considered late will be given a make-up based on the lecture missed.
Students who miss one event must meet with their coordinator.
Students who are late with two or more make-up assignments must meet with Dr. Artis and are subject to dismissal from the program.
