EXECUTIVE SUMMARY

Civic engagement plays a critical role in meeting the mission of the University of California, San Diego (UCSD) by transforming California and a diverse global society through education, the generation and dissemination of knowledge and creative works, and with engagement in public service. Our work for this area is specifically done through key community partnerships with the San Diego County Registrar of Voters, the University of California Office of the President and the California Secretary of State.

This nonpartisan civic and voter empowerment action plan was developed by UC San Diego for the 2024 election. The purpose of this action plan is to increase nonpartisan democratic engagement, student voter registration, education, and turnout in the 2024 general election through an on campus coalition.

"Tritons Vote: Your Vote, Your Choice" features key voting infrastructure provided by the CA Secretary of State and the San Diego County Registrar of Voters including a ballot drop box, a vote center and voter registration links. In addition, the campaign features internal infrastructure through event coordination with Tritons Vote, voter registration activation, and online platforms.

LANDSCAPE & REFLECTION

As a signatory to the Higher Education Presidents' (Chancellor) Commitment to Full Student Voter Participation, UC San Diego will continue to reflect upon its strategic commitment to civic learning, democratic engagement, and youth participation in elections. Through its development of a Civic and Voter Empowerment Action plan, UCSD was able to create and execute a series of goals and strategies that led the institution to be a premiere location within San Diego county for voter registration and education.

Below are the outcomes of the goals in 2022 of which will serve as a foundation for the 2024 goals and strategies:

Goal 1: Provide voting infrastructure for the campus and local community at large such as a ballot drop box and an election vote center.

- Outcomes: established a ballot drop box and secured a vote center location in partnership with UC San Diego's University Center and Library.

Goal 2: Develop or maintain a voter engagement campaign that is aimed at voter registration, education, and outreach.

- Outcomes: Reformed the Student Outreach and Voter Action Committee into Tritons vote to streamline election resources such as voter registration links from the CA Secretary of State, polling location finder, ballot box information, and policies on the election.

Goal 3: Maintain or increase funding resources to ensure voter engagement efforts are fully supported.

- Outcomes: Obtained funding from the University of California Office of the President and LEAD California to support student participation. Secured funding through the Associated Students Office of Civic Engagement to fully support all voter engagement initiatives.

Goal 4: Increase or maintain voter engagement numbers for a mid-term general election.

- Outcomes: Due to the return to in person learning and the reduced number of polling locations, the registration and voter turnout numbers decreased.

GOALS & STRATEGIES

ESTABLISH COMPREHENSIVE VOTING INFRASTRUCTURE FOR UC SAN DIEGO.

Strategy: Maintain a robust voting infrastructure that serves both the campus and the broader local community.
